Our Mission

We use the outdoors, including wilderness canoe trips, to create a transformative environment in which our youth develop life skills, social competencies, and resiliency, thereby fostering their own personal success.

We partner with our youth, supporting them as they carry these skills and successes forward to manage the complex challenges of their lives.

Our Vision

We will empower youth who face barriers in their lives to identify their unique and individual strengths and to build their capacities to chart positive futures for themselves and their communities.

We will advocate for our youth and build broader support for alternative, dynamic approaches to youth development.

Beyond the trip
